with General Use Snap Switches Front Operated

Explosionproof Dust-Ignitionproof Raintight Wet Locations

## Applications:

EDS and EFD enclosures are installed in a rigid metallic conduit system for surface mounting adjacent to or remote from equipment being controlled and are used:

- To prevent arcing of enclosed switch from causing ignition of a specific hazardous atmosphere or atmospheres external to the enclosure
- In industrial areas such as chemical plants, oil and gas refineries, paint and varnish manufacturing plants, gasoline bulk loading terminals, grain elevators, grain processing industries, coal processing or handling areas, or metal handling or finishing areas where atmosphere may contain hazardous gases and/or dust
- In non-hazardous areas where sturdy, durable enclosures are required

## Features:

- Small and compact in design.
- Used with snap switches.
- Mounting lugs and taper tapped hubs with integral bushings.
- Large machine screws for fastening covers to bodies.
- Lockout hole for padlock having $1 / 4^{"}$ hasp is provided.
- Threaded type shafts and bushings are used to insure flame tightness.

## Certifications and Compliances:

- NEC/CEC:

Class I, Divisions 1 \& 2, Groups B*, C, D
Class II, Division 1, Groups E, F, G
Class II, Division 2, Groups F, G
Class III

- NEMA/EEMAC: 3, 7B*CD, 9EFG, 12
- UL Standard: 1203
- CSA Standard: C22.2 No. 30

## Standard Materials:

- Bodies and covers - Feraloy ${ }^{\circledR}$ iron alloy
- Shafts - stainless steel
- Shaft bushings - stainless steel

## Standard Finishes:

- Feraloy iron alloy - electrogalvanized and aluminum acrylic paint
- Stainless steel - natural

## Options:

Description

- Two or three gang bodies can be supplied with combinations of devices listed for one gang enclosures - Refer to modular listing, section 4C
- Class I Group B, NEMA 7B - see listing pages $\qquad$ GB
- Bodies and Covers: copper-free aluminum ................ SA
- Flush wall mounting cover with $1 / 2$ " overhang - single gang only - dull black instrument finish . $\qquad$ S173

EDS Enclosed Snap Switch

## Electrical Ratings

Complies with U.L. snap switch test requirements as follows:

| Type of Test | AC-Rated (only) Switch |
| :--- | :--- |
| Overload | Rated Amp. $+380 \%$ <br> Power Factor $.40-.50$ <br> 100 cycles, $6-10$ cycles per minute |
| Non-Inductive | 10,000 cycles, $18-24$ cycles per minute at rated current -.98 <br> Endurance |
| min. P.F. |  |

## Dimensions

 In Inches:

## Crouse-Hinds

[^0]:    *For Class I, Division 1, Group B, add the GB suffix and install seals within $1-1 / 2$ " of conduit openings. Class I, Division 2, Group B is standard and no seals are required
    †ON-OFF standard marking for 1-pole and 2-pole units
    $\ddagger 15 \mathrm{~A}, 125$ VAC; $10 \mathrm{~A}, 250$ VAC
    §See table on pages 694-695 for AC-rated switch information
    Combinations of switches can be furnished.
    «Purchase from Eaton's Wiring Devices.
    Not factory sealed.
