NICAD BATTERY BACK-UP

FEATURES

This fixture is an excellent choice when an attractive emergency light is required. In cases of AC power loss, it provides a minimum of 90 minutes illumination. A trouble-free lead-calcium battery is provided with the fixture. The lamp heads may be adjusted through the full range of motion because of the special swivel-track design.

BODY

- The thermoplastic housing of the product makes it corrosion-proof and scratch-and impact-resistant.
- UV-stabilization prevents discoloration of the product.
- Compartments shaped by injection
- Power may be supplied via wall or ceiling

FACE

- The face has two square lamp heads that are fit into bevels on either side and each has a reflector and diffuser

MOUNTING

- Unique "snap-together" universal mounting design permits top and back mounting. Required hardware is provided.

ELECTRICAL

- 120V or 277V input
- Reset is automatic
- Hassle-free wiring without the need for additional hardware

LAMPS

- Two 5-W DC T5 wedge-base lamps
- Emergency Light Fixtures: Two moveable glare free light heads that have a positioning lock.

BATTERY

- 6V, 4 amp-hour sealed-lead acid battery works during power failures
- Replaceable and requires no maintenance
- When completely charged, supplies emergency power for 90 minutes.
- Indicator light shows high charge and readiness for operation

TESTING

- Test button
- Solid state line latched low voltage disconnect to avoid deep discharge
- Safeguarded against short circuits
- Power is automatically interrupted in cases of brown-out

LISTED

- UL 924, NFPA, NEC, State & Municipal
- Damp location approved
