Omni Security Systems

LEVITON

Brand Features

The OmniPro II is Leviton's flagship security & automation control system. Boasting the largest feature set, it can control the maximum number of devices and is designed to provide security and automation for large residences and small commercial installations such as restaurants, offices, and franchise locations. In addition to connections for security devices, thermostats, light switches, telephone and backup battery, the OmniPro II features five built-in serial ports for connection to third party control devices for irrigation, telecom, A/V, and window covering controls. The OmniPro II is the only Omni family controller that can connect to non-Leviton distributed audio systems (the Omni IIe and Omni LTe can control Leviton's Hi-Fi 2 distributed audio systems).

Item Description

OmniPro II Controller.

UPC Code: 87225700023

Country of Origin: Please Contact Customer Service
