

Mounting made **easy!**

Accessories that help complete your LED installations.

HANG STRAIGHT PENDANT SWIVELS

Available in bronze and white with a 0° - 45° or 0° - 90° range of motion, these hang straight swivels make mounting pendants to sloped ceilings a cinch!

IN-LINE CONNECTORS

These in-line connectors provide a splice box that matches RAB bronze, black or white fixtures. Use to connect RAB fixtures to RAB arms for added versatility.

CEILING & PENDANT BACKBOXES

Great for adding a sensor to RAB LED garage fixtures. Surface mounts over any shape box and covers unsightly stains or gaps. Five conduit entries enable wiring directly from the back or through the sides using surface conduit. Available in bronze and white for ceiling and pendant mounted garage lights.

RETROFIT GOOF RING

For DLED™ installations when the diameter of the cutout hole is larger than the baffle of the fixture...it covers the open space.
